

KEY STATS

# Supporting North East businesses during COVID-19

## We've helped businesses to secure £15m in funding

We have helped business owners secure £15 million in financial support during the Coronavirus pandemic.

We also provided business support and expert advice to clients in order to claim other Government support, including grants and deferrals of income tax payments and VAT.

We helped file more than 100 Coronavirus Job Retention Scheme claims to HMRC, helping to support a large number of North East businesses to retain staff through the lockdown and saving approximately 600 jobs, resulting in over £1.5m in CJRS grants for employers so far.

50

claims submitted for innovative tax relief since March 2020

£4m

overall saving for our clients (R&D, Patent Box, MGETR)
